

HydroSystemTanks® for municipal water supply

Type: 2 x HST 500
Function: Drinking water storage tank
City/Country: Weiler-Simmerberg/Germany

Project info:

Material: Stainless steel ASTM S31603
Volume: 2 x 500 m³
Diameter x Height: D 11500 mm x H 5150 mm
Wall thickness: 3 mm
Weight: 11 t per tank
Length of welding seams: 700 m per tank
Year of realisation: 2017
Specialities: Drinking water storage tank with two upstream UV disinfection systems
